CE 6.0 Demo Image Installation Guide

1. Click <u>boot6</u> to download and unzip, you will find the following files:

CE6_boot.GHO	2010/6/8 下午 01	Ghost 映像文件	84 KB
🦻 ghost32.exe	2006/12/4 下午 0	應用程式	5,160 KB

- Use windows platform OS to restore the ghost image "CE6_boot.GHO" to the storage that you plan to use on EBOX unit.
 Note: Demo image can not boot up from USB memory stick, please use SD card, SATA DOM, SATA Slim DOM or 2.5" SATA HDD.
- 3. Download corresponding Demo Image files from <u>EBOX support page</u>, and unzip the NK.bin file.
- 4. Copy the NK.bin and paste to previous "CE6_boot.GHO" restored storage.

- 2 ● 電腦 → 9	SD (D:)	• 47	搜尋 SD (D:)
• 開啟	燒錄 新増資料夾		8==
obe PDF	▲ 名稱 [▲]	修改日期	類型
t ī bgle Drive f的位置 bgle 雲端硬碟 bud 照片	BOOT	2006/9/7 上午 04:00	組態設定
	EBOOT.BIX	2006/9/7 上午 04:00	BIX 檔案
	SPLASH.BMX	2010/10/26 下午 12:48	BMX 檔案
	NK.bin	2013/3/25 上午 09:38	BIN 檔案

- 5. Remove the storage and insert into EBOX unit to boot up.
- 6. Display will show CE 6.0 logo after boot up completed.
